

Message from your Security/Emergency Management Team:

Change to Emergency Broadcast Stations

Beginning January 1st, KIRO Radio 710 AM will no longer be an emergency broadcast station – it will become all-sports.

KIRO 97.3 FM and **KOMO AM 1000** will be the designated emergency broadcast stations for our region starting Jan. 1.

In the event of severe weather or other disaster, please tune to these stations for continual updates regarding Port closures, road conditions and other vital emergency information. Most stations will 'break-in' with emergency updates, these two stations will broadcast it continually.

Recorded, Port-specific information may be available on our internal emergency call-in line, **206-728-3700**.

Contact Kathy Gleaves in Emergency Management if you have any questions x3153.
