**WORK PROJECT #:**

In accordance to Article IX, Jurisdictional Disputes, Section 1(c) of the Seattle-Tacoma International Airport Modernization Project Labor Agreement and directive number five (5) in the Seattle-Tacoma International Airport Modernization Project Labor Agreement and Substance Abuse Policy Procedures, I have read and reviewed all supporting written documentation submitted by the competing Unions on the work described below. Following the aforementioned provisions and procedures, I have indicated next to each task my final trade assignment.

Unions not in agreement with these final trade assignments may avail themselves of the jurisdictional resolution process found in the Project Labor Agreement, Article IX, Jurisdictional Disputes, Section 2. This provision allows for competing Unions to pursue their claims through the "Plan" without disrupting the work of the affected Contractor.

The following is a description of the contested work and the final trade assignment for each task: (A separate letter of "Final Trade Assignment" should be made for each piece of work or task that is contested)
