Re: Industrial Wastewater System Discharge Monitoring Report – May 2009

NPDES Permit WA-002465-1, Part I Special Condition S3.A

Dear Mr. Abbasi:

Enclosed you will find the Industrial Wastewater System Discharge Monitoring Report prepared in compliance with Part I Special Condition S3.A of the NPDES Permit for Seattle-Tacoma International Airport for the month of May 2009. On May 21, a sample that was analyzed for oil and grease exceeded its hold time for that laboratory method. The sample was still analyzed and the result included in the DMR.

If you have any questions regarding this letter, please contact Bob Duffner of my staff at 206/988-5528.

Sincerely,

A handwritten signature in cursive script, appearing to read "Michael D. Feldman".
