## About the Port

Established in 1911, the Port of Seattle is a special purpose government established to foster regional economic vitality, provide transportation facilities for cargo and passengers by air, water, and land, and to provide a home for the Northwest fishing industry. Five commissioners, elected at large by the voters of King County, serve four-year terms and establish Port of Seattle policy. The chief executive officer, in carrying out the policies, leads the employees and oversees Port programs.
