<p>(A) All tariff rates, deposits, fees, rentals and charges shall be automatically adjusted each year (beginning in 1999), effective each December 1, to reflect inflation increases which have occurred since the previous rate adjustment as measured by the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) for Seattle-Tacoma Bremerton (or successor index or reasonable substitute if no successor index is readily identifiable). Inflation adjustments shall be calculated as the average annual percentage change in the index for all reporting periods during the previous twelve-month period ending in October. All inflation adjustments shall be rounded to the nearest 25 cents for ease of administration. The Executive Director may waive implementation of all or a portion of the automatic annual inflationary increase in any year for a specific tariff or tariff item, if such increase would result in market imbalance, or would be technologically infeasible or otherwise detrimental to Port interests.</p>	<p>ITEM 1 cont'd <input checked="" type="checkbox"/></p>
