

### **1.03 RELATIONSHIP TO OTHER AIRPORT STANDARDS AND GUIDELINES**

This Signage Standards Manual is intended as a stand-alone document and shall supersede the Signage & Graphics Guidelines Manual and all other previous signage manuals/standards, including the standards identified in Tenant Construction Handbook for STIA.

Port of Seattle project managers shall determine which of the following other STIA standards, in addition to this Signage Standards Manual, are appropriate for use on a project by project basis. Design consultants shall resource this material for use on their projects.

- " Seattle-Tacoma International Airport Design Guidelines, August 16, 1999
- " Regulations of Airport Construction (RAC), August 22, 1996
- " Interim Landscape Design Standards, December 6, 1999
