Key message:

Rental Car revenue continues to be impacted by availability of other transportation alternatives (TNCs, car-sharing, light rail, etc.)

2018 Forecast vs. 2017 Actuals

Rental Car Concession revenue - Forecast relatively flat to prior year. Concession Revenue is impacted by (3) key indicators:

- Expected decline in Transactions per O&D Enplanement reflects trend in passenger preference shifting to other transportation options
- Total Transactions expected to grow at a slower rate than the growth in enplanements
- Average ticket price is a function of rental car pricing and customer demand, and can vary significantly. The 2018 Budget and the 2018 Forecast assumes an average ticket price closer to 2016 actuals. This metric will be monitored and adjusted in the 2018 forecast, as needed

CFC Operating Revenue

- Forecasted to increase by \$4.9M

- \$1.3M increase due to increase in Transaction Days forecasted for 2018
- \$3.6M increase due to lower debt service in 2018, primarily driven by final payment on outstanding Commercial Paper balance (\$3.0M) paid last year

Rental Car activity has slowed due to transportation alternatives

2018 Forecast vs. 2017 Actuals

GT Revenue forecast compared to prior year:

- TNC revenue forecast in 2018 reflects continued shift in customer preference and the impact of the rate increase (to \$6/trip) effective for the full year
- Taxi revenue forecasted to decline (\$0.6M) partially due to rate decrease (to \$6/trip) effective all year in 2018, compared to \$7/trip in effect for the first 9 months of 2017
- Courtesy car revenue increase reflects rate correction in 2018 Budget

GT Trip Activity forecast compared to prior year:

- TNC trip volume expected to continue to grow at a rate slightly faster than the growth in enplaned passengers, driven by strong customer demand
- Taxi trips expected to grow at a slower rate than the growth in enplaned passengers
- Declines in other operator categories reflects the changing GT operating environment

- (2) Actual projected billings as provided by contractor have been less than anticipated.
- (3) \$8.7M of capital budget deemed to be public expense, as the equipment will be transferred to TSA. Additionally, equipment supply and integration issues with airlines and TSA are causing delays.
- (4) Early works construction cancelled and combined with main construction phase due to better coordination with adjacent projects.
- (5) Bid bust has resulted in one year delay of project. Currently re-evaluating options for additional scope to be added.
- (6) Delays in design-build performance and IAF building foundations/steel.
- (7) Lack of resources and increased requirements delayed project start date. Requirements have changed since the original estimate, thus delaying construction.
