The Ballard Locks
Keystone of Puget Sound’s Maritime Economy

As the Ballard Locks turn 100 years old, its sustainability has never been more important or more in jeopardy.

A UNIQUE NATIONAL ASSET

- The keystone of a billion-dollar-plus maritime economic system
- A critical environmental control for the vast watersheds around Seattle
- An important safeguard for tribal fishing rights
- A vital piece of public-safety infrastructure
- The only locks in the U.S. that connects a large urban lake system directly to the ocean

THE NUMBERS

40,000 annual transits
most in the nation

7,500 commercial vessel transits
twelfth highest in the nation

1.1 million tons of shipping

THE DOLLARS & JOBS

Local businesses depend on the Ballard Locks for:

- $480 million in annual sales
- $120 million in annual payroll
- 3,000 full-time equivalent jobs directly associated with Locks-related business activity
- $545 million in annual commercial fishing harvests by vessels that depend on the Locks
- $40 million in annual spending by 1.25 million visitors and school classes

$1.2 BILLION in total Locks-related economic activity

If the Locks were to close before the fleet could leave for the season, it would cost a whole season. — Fishing Association
The urgent need for reinvestment

Deferred maintenance threatens daily operations; lack of reinvestment threatens the regional economy.
- A dozen components at the Locks need major repair or replacement.
- An extended, unplanned closure of the Locks would have significant negative effects on at least 200 businesses and would threaten public safety.

Keeping the Locks safe and reliable requires more than flat operations and maintenance funding.
- Annual O&M funding is stretched thinner and thinner, and the potential for failure increases every year.
- Only a small portion of long-term needs have been addressed.

ENVIRONMENTAL AND PUBLIC INFRASTRUCTURE VALUE
The Locks control water levels in Lake Washington and Lake Union to maintain key infrastructure that includes the Washington State Route 520 and Interstate 90 floating bridges, the water and sewer systems that serve Mercer Island’s 24,000 residents, and approximately 75 miles of residential, municipal and commercial shoreline and moorage.

The Ballard Locks and its fish ladder safeguard an investment of more than $125 million in freshwater salmon habitat protection and restoration over the last two decades.

The Locks are the only marine access and egress point for equipment and supplies for major infrastructure projects such as the $4.6 billion renewal of the State Route 520 floating bridge and removal of excavated material during construction of a planned $430 million Ballard/Wallingford stormwater tunnel.

TRIBAL RIGHTS VALUE
The Ballard Locks are key to meeting federal trust responsibilities under treaties between the U.S. government and two federally recognized tribes by protecting migrating salmon to safeguard traditional and customary tribal activities.

PUBLIC SAFETY VALUE
The Ballard Locks ensure rapid emergency response for public safety vessels between Lake Washington and Lake Union and Puget Sound.

Funding Needed: $30 to $60 Million

The study was conducted by McDowell Group and administered by the Marine Exchange of Puget Sound. The following companies and organizations contributed funds:

- Ballard Alliance
- Ballard Oil Company
- City of Kenmore
- City of Kirkland
- City of Seattle
- Coastal Transportation
- Covich-Williams
- CSR Marine
- Ferguson Terminal
- Foss Maritime Company
- Freezer Longline Coalition
- Fremont Dock Company
- Kane Environmental
- King County
- Kirby Corporation
- Lake Union Drydock Company
- Malone Law Group PS
- Nautical Landing Marina
- Nordic Heritage Museum
- Northwest Marine Trade Association
- Northwest Yacht Brokers Association
- O’Hara Corporation
- Pacific Fishermen Shipyard
- Port of Seattle
- Puget Sound Ports Council, Maritime Trades Department AFL-CIO
- Seattle Marine Business Coalition
- Stabbert Maritime
- The American Waterways Operators
- Trident Seafoods
- United Catcher Boats
- United States Seafoods
- Vigor
- Western Towboat
