SUSTAINABLE AIRPORT MASTER PLAN

Master Plan stages

- Inventory
- Forecasts
- Facility requirements
- Planning alternatives
- Environmental review
- Implementation plan
- Plan of Finance
- Airport Layout Plan approval
Environmental Scoping Public Comment Milestones

- **Planning Open Houses**
  - 5/30, 6/14, 6/20

- **Environmental Analysis**
  - Summer 2018 – Summer 2019

- **NEPA EA/SEPA EIS comment period**
  - Fall 2019

- **Agency & Public Scoping Process**
  - Start scoping process notification: July 23
  - Agency and public scoping meetings:
    - Week of Sept. 10
    - Comment period closes: Sept. 21

- **Draft NEPA EA/SEPA EIS**
  - Summer 2019

- **Final NEPA EA/SEPA EIS**
  - Winter 2019

- **Winter 2019**
  - FAA NEPA Decision
  - Port of Seattle SEPA Determination
DEVELOPMENT CONSTRAINTS AND KEY FUNCTIONAL AREAS
PHASED APPROACH

Phased approach required to meet future demand

- Airfield/airspace constraints result in major congestion as activity nears 59 million passengers (2029)

- Phased approach required to advance SAMP
  - Identify projects to accommodate near-term demand within existing constraints
  - Near-Term projects
  - Conduct environmental review of Near-Term projects
  - Follow-on planning study to address airfield/airspace constraints
  - Resolve constraints in the future phase

- Near-Term projects
  - Near-Term projects can accommodate 2027 market demand
  - Approximately 56 million annual passengers
