A. BELL HARBOR MARINA
1. Moorage assignments and payment of moorage charges shall be administered at the Marina office, in accordance with current Port tariff.
2. Any vessel, vehicle, property, gear, or equipment will be parked, stored, moored or maneuvered in a safe and orderly manner.
3. The Executive Director may establish such reasonable traffic and parking regulations as may be required for orderly handling of motor vehicles on Port premises. A vehicle parked in violation of any such sign or regulations may be towed and impounded in accordance with individual marina parking guidelines at owner’s expense.
4. The vehicle parking areas are to be used only for vehicular parking in connection with the use of Port premises. Overnight camping will only be allowed in connection with Port approved special events.
5. Loud or boisterous conduct, sleeping, lewd or lascivious conduct, unnecessary blowing of horns, changing clothes, etc., are not permitted in vehicles on the Port’s premises. Vessel owners/operators will not maintain anything that may be dangerous to life or limb or permit any objectionable noise or odor on any vessel, Port premises, or premises adjacent thereto, and will not create a nuisance or disturb any other vessel owner, guest or lessee of the Port.
6. All vessels or vehicles using facilities or space within Port premises will be subject to all of the charges, rules, and conditions as prescribed by Port tariff. The Executive Director may deny the use of any of the facilities or Port premises to any person who shall refuse to comply with these rules and regulations. Any such person may be subject to prosecution as a trespasser to the fullest extent possible under the law.
7. All Washington State vessels must have and maintain a current Washington State Vessel Registration that shall be posted on their vessel in clear view. Documented vessels are not required to post their registrations; however, they must supply proof of current vessel registration when requested. Failure to post or provide current Washington State vessel registration may result in termination of moorage.

Moorage customers shall provide up to date proof of vessel insurance and a current Washington State vessel registration, which is required by state law RCW 88.26.030, upon slip assignment and/or as requested by the Port. Non-residents of the state may present the following as a substitute for Washington State vessel registration: Proof of non-residence (vessel may only stay 60 days), a one-year use permit for vessels 30’ or longer obtained under RCW 82.08.700 or 82.12.700, a nonresident vessel permit under RCW 88.02.620 where use in this state does not exceed 6 months in any continuous 12 month period. Foreign vessels
may present a US Customs service cruising license or permits issued by the State of Washington allowing an extended stay.

8. All vessels entering Port premises must have a valid identification permanently affixed to the hull and clearly visible from the outside. Coast Guard registered vessels must have the name of the vessel on the hull. Failure to have either may be cause for refusal or termination of moorage.

9. Drinking of alcoholic beverages, except on licensed premises or private vessels, is prohibited. Engaging in the illegal use of or being instrumental in the exchange of illegal substances on Port premises is expressly forbidden.

10. It is against the law to discharge hazardous substances, oil, cleaning products, and untreated sewage into U.S. navigable waters. The owner, operator or person in charge of the vessel at the time will be subject to fines and charged for clean-up costs. If the responsible party fails to report the spill to appropriate authorities, higher fines and a jail sentence may be imposed according to 33 USC 1321. No garbage, trash, oil, cleaning products, fuel, debris, or other material, liquid or solid, shall be deposited in the water or on land areas of Port premises, or on any floats, or piers, except into containers provided for that specific purpose. Waste oils must be poured into special containers provided for that specific purpose. For more information on environmental regulations, see Required Management Practices (RMPs).

11. All vessel owners, operators, crew or guests using Port premises or its facilities for moorage or otherwise shall keep his/her vessel, gear locker, boathouse, net areas, and the pier or finger in the vicinity of his/her vessel neat, clean, orderly, and shipshape.

12. Anyone present on or in Port premises and/or using Port premises or equipment shall comply with any verbal or written signs or communicative, including administrative and operational policies and procedures, issued or posted by the Executive Director or Port Staff.

13. No storage is permitted on piers or fingers. Oily rags, open paints, or other inflammable or explosive material must not be stored in locker boxes, net lockers, or other Port buildings or facilities.

14. Fire hoses and other fire-fighting equipment are to be used only for the fighting of fires.

15. Vessels which, in the opinion of the Executive Director, do not meet normal safety standards or because of their size or construction are hazardous to Port premises or other vessels or facilities will be denied permission to remain on Port premises.

16. Vessels moored in a Port harbor must, at all times, be completely seaworthy, meaning that it is operable and ready for immediate cruising in local waters. Vessels must be able to safely maneuver under their own power, using a propulsion system that is consistent with the vessel’s original design plans, from its slip to another port of call and back to its slip. In cases where a vessel does not appear to have left its mooring for a long period of time and the question of operability arises, Marina Management may require a demonstration of the vessel’s operability. Affixing tow ropes, outboard engines or other power workarounds does not satisfy the propulsion requirement and may result in a notice of termination.

17. Vessels, which in the opinion of the Executive Director, have been altered so that they fail to conform with the manufacturer’s vessel design, are not allowed at Port Marinas. Floating Homes, House Barges and vessels that have been modified to serve primarily as a residence and not a navigable vessel are prohibited at Port Marinas.
18. Permitted Watercraft are boats/vessels designed for navigation on open waters, capable of being used as a means of transportation and used for recreational or commercial boating. Permitted vessels/boats are of a class or a type designated by convention as a self-propelled boat/vessel, an auxiliary boat/vessel, or a sailboat/powerboat.

19. To avoid injury or damage to persons, property or the environment, vessels moored at Bell Harbor Marina must be properly maintained in a safe and hazard free condition. A vessel owner who denies permission when requested for an on-board inspection by Port Management, and/or city, county, state or federal representatives, for purposes of determining or verifying the condition of a vessel shall be deemed in non-compliance with Port of Seattle regulations.

   The foregoing notwithstanding, the Port is under no obligation to undertake the inspection of any vessel, and by undertaking such an inspection; the Port assumes no responsibility for the vessel’s condition or safekeeping.

20. Those utilizing Port premises shall obey all Port, Municipal, County, State, and Federal regulations and laws, and generally accepted safety standards and requirements to ensure that his/her actions or vessel do not become a hazard to himself/herself or other vessels, or persons, in Port premises.

21. Discharging any material from vessels in a manner inconsistent with federal law is prohibited while in Port premises. This prohibition includes discharge of sewage from toilet facilities. See Environmental Protection Agency regulations implementing the Clean Water Act, section 312 (standards for marine sanitation devices [MSDs]): 40 C.F.R. 140 et seq, USC Title 33 Chapter I Subchapter O Part 159, Revised Code of Washington (RCW) 90.48.080, Washington Administrative Code (WAC) 173-201A, and Coast Guard regulations implementing CWA section 312, 33 C.F.R. 159, Subparts A-D.

22. The owner, operator, or person in charge of the vessel at the time of illegal discharge can be fined according to laws governing U.S. navigable waters. Vessels violating federal discharge laws shall be deemed in violation of this article and the moorage agreement and may be subject to termination of moorage. If a permit for living aboard is granted, management may require subscription to a sewage removal service and may request documents to confirm that such a contract has been entered into as a condition of the moorage agreement.

23. Vessels may be moved by the Executive Director for the protection of life or property or best utilization of the facility.

24. Moorage space, once assigned, may not be sub-assigned by the user without written approval of the Executive Director.

25. Pets (dogs and cats) must be kept on a leash and controlled at all times in areas owned by the Port. Owners will be responsible for proper clean-up and disposal of animal waste in a proper container; waste shall not be put into the water. Pet owners will ensure their pets are not disruptive. Non-compliance may lead to termination of moorage.

26. Swimming, water-skiing, jet-skiing, scuba-diving or use of any unorthodox-type of vessel, raft or other contraption is not permitted in any Port premises.

27. Storage of rowboats, skiffs, dinghies, rafts, nets, reels, and other items of equipment will be designated by the Executive Director. Any of the above items or other equipment or gear left without proper storage arrangements will be in violation of the rules and subject to being removed as a nuisance at the owner’s expense.
28. Keeping children safe is a priority at Bell Harbor Marina. Children under twelve (12) years of age are not permitted on the docks at any time without a parent or other responsible adult. Life jackets are recommended for children on the docks as well as all non-swimmers. Bell Harbor Marina is part of the Boat US Foundation Life Jacket Loaner for Kids program. Moorage customers and marina visitors may check out a free child life jacket for a day at the Marina Office. Valid photo ID is required.

29. The movement of vessels within the moorage area (between piers) shall be for the purpose of mooring, entering, or leaving a slip only. Among other things, no random sailing or cruising by motor vessels will be permitted. All Port of Seattle moorage facilities are no-wake zones.

30. Vessels, when unattended, must be securely moored with bow, stern, and spring lines of an adequate size and number to keep the vessel secure.

31. Posting of signs for the sale or charter of vessels while moored in Port premises shall be subject to the approval of the Executive Director.

32. Vessel gear and dock carts shall be returned to the top of the corresponding ramp or dock immediately after use.

33. Unattended vessels will not remain moored at any fuel float.

34. No commercial use of facilities at Port premises will be allowed unless a Port of Seattle permit or license has been granted by the Executive Director. The requirements and conditions for such permits and licenses shall be outlined in separate instructions as issued by the Executive Director.

35. The Port reserves the right to inspect any of its property, such as dock boxes, bike lockers, finger piers, slips, and any other Port premises, at any time. Failure to inspect shall not be deemed to create any responsibility and/or liability upon the Port.

36. No major repair work or outfitting, spray-painting, sandblasting, sanding, welding or burning on vessels will be performed in the marina. Painting, scraping, and refinishing of vessels when in the water is limited to minor touch ups that include a small area on the superstructure, deck and hull above the waterline. All minor painting, scraping and refinishing must be contained and all debris collected. Please note that state law prohibits hull cleaning of vessels treated with sloughing and ablative anti-fouling paints and time based compounds. Extensive repair work and bottom cleaning should occur in a permitted, commercial boatyard.

37. Transfer of fuels, oils, lubricants, or other flammable liquids of any kind, from vessel to float/dock or from float/dock to vessel, is strictly prohibited. Fuel transfers are only allowed at designated areas such as the fuel dock. Please inquire at the marina/terminal office for assistance.

38. A minimum of $300,000 (three hundred thousand dollars) of liability insurance is required for all recreational vessels moored for 30 days or more that fall into any one or more of the following categories:

   a. Hull length greater than 16 feet.
   b. 10-horsepower motor or larger.
   c. Launched or retrieved by operation of a Port of Seattle hoist.

Vessels exempt from this policy include:

   a. Human-powered vessels of any size.
   b. Guest moorage vessels staying less than 30 days.
Liability insurance is to remain current and in effect at all times as a condition of moorage. Evidence of insurance may be requested by Marina Management at any time.

39. Liability coverage in the amount of $1,000,000 (one million dollars) is required for any charter or other vessel for commercial hire, including bare boat charters. Vessel dealers and brokers, sailing clubs, and events held on Port premises will be required to carry marine general liability coverage tailored to their operations and/or number of vessels. The Port is to be listed as an additional insured.

40. Liability insurance is to remain current and in effect at all times as a condition of moorage. Evidence of insurance may be requested by Marina Management at any time.

41. K. LIABILITY LIMITATIONS
The Port of Seattle does not accept any liability for damages to property or injury or death of individuals caused by, or resulting from, persons, corporations, agents, or employees performing a service to a private vessel moored or located on Port premises. The Executive Director shall be authorized to publish and enforce appropriate rules to ensure security and safety on Port premises including requiring appropriate hold harmless agreements, release agreements and evidence of insurance. Permission granted by the Executive Director shall be solely for regulation. The Port assumes no responsibility for any loss or damage resulting from the use of Port premises by said person, corporation, agent, or employee of a vessel owner. M. TERMINATION OF MOORAGE
Any vessel violating the moorage agreement or the rules and regulations pertaining to Bell Harbor Marina or this Tariff shall be subject to termination of the agreement. The Port may terminate the moorage agreement of any vessel for any reason upon thirty (30) days’ notice; or for a violation of the moorage agreement, or the rules and regulations pertaining to Bell Harbor Marina or this Tariff, upon ten (10) days’ notice. Notice shall be by personal delivery or by placing, in the U.S. Mail, a registered letter to the owner at his/her last known address, and by posting a notice on the vessel. A vessel remaining at Bell Harbor Marina after the notice period has elapsed will be considered a Violation Vessel.
N. **REMOVAL OF VESSELS FOR NON-PAYMENT OF CHARGES**

1. When a vessel owner fails to pay charges owing the Port, the Port may take reasonable measures, including but not limited to the use of chains, ropes, and locks, or removal of a vessel from the water to secure vessels within Bell Harbor Marina, so that the vessels are in the possession and control of the Port and cannot be removed from Bell Harbor Marina.

These procedures may be used if an owner mooring or storing a vessel at Bell Harbor Marina fails, after being notified that charges are owing and of the owner’s right to commence legal proceedings to contest that such charges are owing, to pay the Port charges owed or to commence legal proceedings to contest the charges. Notice shall be by placing in the U.S. Mail a certified letter to the owner at his/her last known address, and by posting a notice on the vessel. In the case of a transient vessel or where no address was furnished by the owner, the Port need not give such notice prior to securing the vessel. The notice shall set forth the charges owing, shall inform the owner of his/her right to commence legal proceedings to contest the charges, and shall state that the Port may terminate the moorage and seize the vessel if charges are not paid or legal proceedings are not commenced to contest charges. At the time of securing the vessel, an authorized Port employee shall attach to the vessel a readily visible notice. The notice shall be of a reasonable size and shall contain the following information:

a. The date and time the notice was attached;

b. A statement that if the account is not paid in full within ninety (90) days from the time the notice is attached, the vessel may be sold at public auction to satisfy the Port charges; and

c. The address and telephone number where additional information may be obtained concerning release of the vessel.

The Port shall review its records to ascertain the identity of the owner or anyone with an ownership interest in the vessel. The Port shall notify the owner and anyone known to the Port to have an ownership interest in the vessel by certified mail in order to give them the information contained in the notification.

2. The owner may regain possession of the vessel by:

a. Making arrangements satisfactory to the Port for the immediate removal of the vessel from the moorage facility or for authorized moorage; and

b. Making payment to the Port of all Port charges, or by posting with the Port a sufficient cash bond or other acceptable security to be held in trust by the Port pending written agreement of the parties with respect to payment by the vessel owner of the amount owing, or pending resolution of the matter of the Port charges in a civil action in a court of competent jurisdiction. After entry of judgment, including any appeals, in a court of competent jurisdiction, or after the parties reach agreement with respect to payment, the trust shall terminate and the Port shall receive so much of the bond or other security as is agreed or as is necessary to satisfy any judgment, costs, and interest as may be awarded to the Port. The balance shall be refunded immediately to the owner at his/her last known address.

3. If a vessel has been secured by the Port under subsection (1) of this section and is not released to the owner under the bonding provisions of this section within ninety (90) days after notifying or attempting to notify the owner under subsection (1), the vessel shall be conclusively presumed to have been abandoned by the owner.

4. Before the vessel is sold, the owner or anyone known to the Port to have an ownership interest in the vessel shall be given at least twenty (20) days’ notice of the sale in the manner set forth in subsection (1) of this section. The notice shall contain the time and place of the sale, a reasonable description of the vessel to be sold, and the amount of Port charges owed with
respect to the vessel. The notice of sale shall be published at least once, more than ten (10) but not more than twenty (20) days before the sale, in a newspaper of general circulation in King County. Such notice shall include the name of the vessel, if any, the last known owner and address thereof, and a reasonable description of the vessel to be sold.

The Port may bid all or part of its Port charges at the sale and may become a purchaser at the sale. In the event no one purchases the vessel at a sale, or a vessel is not removed from the premises or other arrangements are not made within ten (10) days of sale, title to the vessel will revert to the Port.

The proceeds of a sale shall first be applied to the payment of Port charges. The balance, if any shall be paid to the owner. If the owner cannot in the exercise of due diligence be located by the Port within one (1) year of the date of the sale, the excess funds from the sale shall revert to the Department of Revenue pursuant to Chapter 63.28 RCW. If the sale is for a sum less than the applicable Port charges, the Port is entitled to assert a claim for deficiency.

5. Before the vessel is sold, any person seeking to redeem an impounded vessel under this section may commence a lawsuit in the Superior Court for the county in which the vessel was impounded to contest the validity of the impoundment or the amount of the Port charges owing. Such lawsuit must be commenced within ten (10) days of the date the notification was provided pursuant to Section (1), or the right to a hearing shall be deemed waived and the owner shall be liable for any charges owing the Port. In the event of litigation, the prevailing party shall be entitled to reasonable attorneys’ fees and costs.

6. The Port shall at all times conspicuously post this tariff. Posted, in this instance, means that the tariff is available online and a copy is available in the Marina office.

O. REMOVAL OF VIOLATION VESSELS
A violation vessel may immediately and without notice be moved by the Port from Bell Harbor Marina to another location. Notice will be given, or attempted to be given, prior to moving a vessel whenever a non-emergency situation exists. All expenses and risk of loss or damage resulting therefrom shall be borne by the vessel owner. In the event the vessel is moved to another marina, the vessel owner shall, in addition, be liable to the Port for the prevailing moorage rate and other fees customarily charged at the facility to which the vessel is moved. Provided, however, that this Item 2100 (Q) shall not apply and the Port shall proceed under item 2100 (P), if the only cause of violation is the non-payment of Port charges.

The Port reserves the right to temporarily or permanently stop the sale of seafood from vessels at any of these facilities if a determination is made that the safety of the public is at risk. This includes safe parking of private vehicles associated with private citizens wishing to purchase seafood, supervision of children in and around the point of seafood sales, fire code issues including the use of grills, barbeques or other cooking devices; electrical extension cords or other electrical devices, and the placement of any tents or structure on the docks adjacent to the seafood sales area.
