FORT&ERRA  **Port of Seattle**

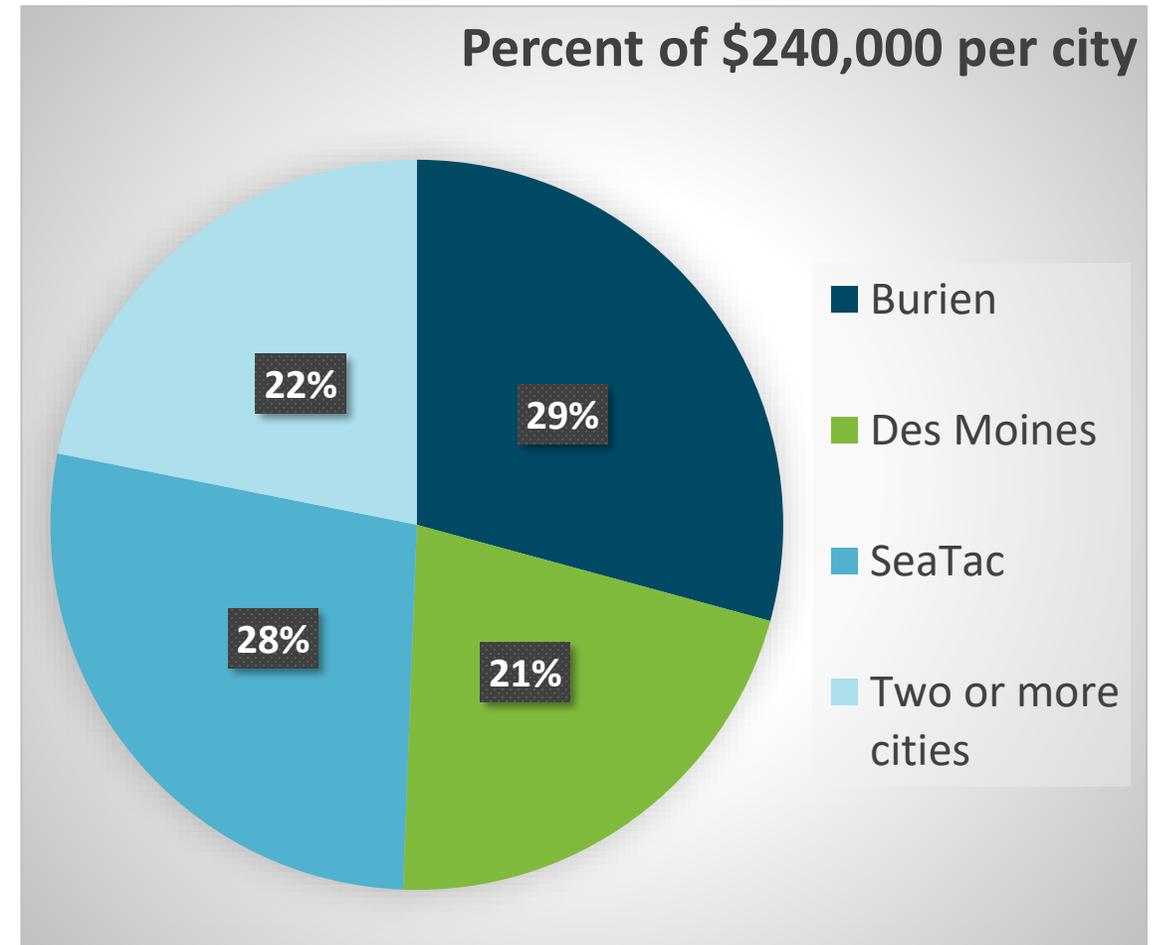

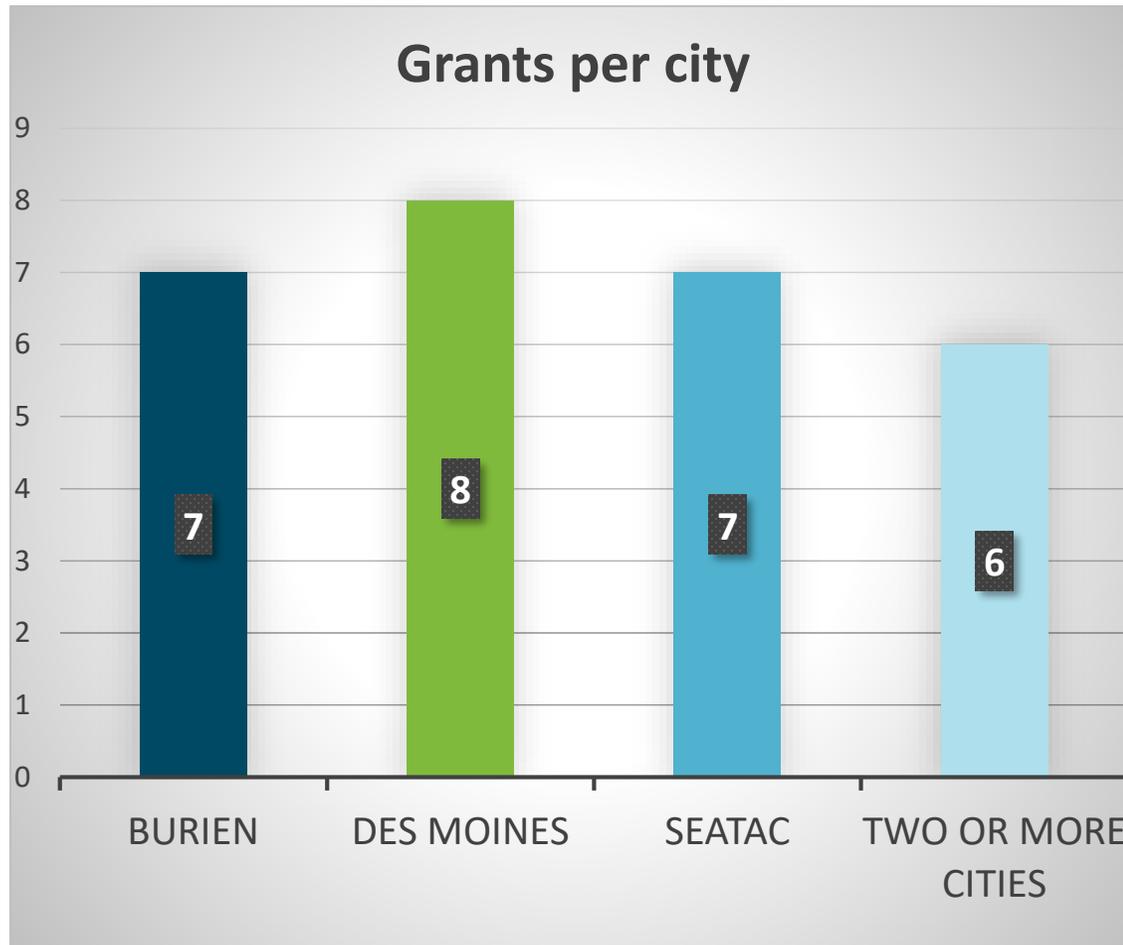

The graphic features a central background image of a forest. On the left side, there are four small inset photos showing people engaged in tree-planting activities. At the top right is a stylized tree logo. At the bottom, there are logos for Fort&erra, the City of Burien, and the Port of Seattle.

Small Matching Grants Program

- \$240,000 distributed
- 20 organizations
- 28 unique projects
 - Urban forest restoration
 - Healthy food access
 - Parks improvements
 - Environmental education
 - Waste reduction and recycling

ACE Funding Awards by Jurisdiction

Small Matching Grants Program – SeaTac

Small Matching Grants Program - Burien

Small Matching Grants Program – Des Moines

Challenges

- 3:1 match favors organizations with larger budgets and staff
- Port processes for application, selection, and reporting were not co-created with the community, and are difficult for small, diverse organizations to manage.
- “Ecological” messaging of the grant excludes groups that experience the environment differently.

Recommended Solutions

- Government Relations working reduce or remove required 3:1 match through 2020 state Legislative agenda.
- Collaborate with Office of Equity, Diversity and Inclusion to conduct equity evaluation and restructure program to serve historically under-represented communities.
- Utilize results of equity evaluation to co-create culturally relevant messaging to connect with community sense of place.

Thank you! Questions?
