

Meeting Purpose

The purpose of this one-time training session is to provide the Biometrics External Advisory Group members with foundational level-setting information on biometrics technology. The training will discuss the technology without any particular bias or perspective on the merits, although it will address some of the questions about current limitations of the technology.

The Trainer

Dr. Cecilia Aragon is Director of the Human Centered Data Science Lab, Founding Co-Director of the University of Washington Data Science Master's Program, Professor in the Department of Human Centered Design & Engineering, and Senior Data Science Fellow in the eScience Institute at the University of Washington (UW) in Seattle. In 2016, Dr. Aragon became the first Latina to be named to the rank of Full Professor in the College of Engineering at UW in its hundred-year history.

She earned her Ph.D. in computer science with a minor in statistics from UC Berkeley in 2004, and her B.S. in mathematics from the California Institute of Technology. She has authored or co-authored over 100 peer-reviewed publications and over 130 other publications on topics encompassing data science, biometrics, image recognition, visual analytics, and machine learning.

Agenda*

Time	Item	Lead(s)
11:55am	Participant Check-in	All
12:00pm	Welcome <ul style="list-style-type: none">• Session Purpose• Trainer Introduction	Port of Seattle; Brian Scott, BDS
12:15pm	Biometrics Technology Training	Dr. Cecilia Aragon
12:45pm	Questions & Discussion	All
1:55pm	Next Steps	BDS
2:00pm	Adjourn	All

**Total time is flexible to accommodate questions and discussion*
