FlyHealthy@SEA: We’re Ready When You Are

The COVID-19 global pandemic forced massive shifts in our lives. We now expect different behavior from each other and new protocols from businesses to protect our health.

We’re living in a new normal. Your safety, health and well-being are our priority, always. As part of FlyHealthy@SEA, a few things will be different the next time you travel. We require face coverings, escalated cleaning and disinfecting, implemented physical distancing, and added touchless technologies.

Our team at Seattle-Tacoma International Airport (SEA) is ready for the incremental increases in air travel now and to come. We currently forecast being down 61 percent this year, but we know a busier terminal and better times are ahead.

SEA Birthday Wish — Healthy Travelers!

SEA turns 71-years-old this month, and all we want for our birthday is healthy travelers. Help stop the spread and mask up!

All summer, you will see Mask Up SEA Street Team in the terminal distributing care kits to travelers without masks or face coverings and spreading our love for our travelers. Learn more about Mask Up SEA and how to FlyHealthy@SEA.
Preparing to Travel — Recovery Ready

The next time you visit SEA, your experience will look and feel different, including:

- Passengers, visitors, and workers are required to wear face coverings in the public areas of SEA
- Signage for reminders and spacing to honor physical distancing
- Plastic protective barriers that buffer interactions between travelers and airport employees
- Frequent disinfection with medical-grade cleaning products
- Added over 250 hand sanitizer stations throughout the terminal for your use. Download the SEA App with our interactive map of hand sanitizer locations.
- Each dining and retail tenant at SEA developed plans detailing procedures for safe operations such as physical distancing requirements, sanitation and personal hygiene protocols, personal protective equipment, and how to provide services while limiting close interactions.

FlyHealthy@SEA will continue to evolve as travelers return to the airport.

Help Stop the Spread — Passenger Actions

Passengers, employees, and the community can help stop the spread of COVID-19. We ask you to follow these guidelines to protect yourself, your fellow travelers and airport employees, including:

- Avoid non-essential travel
- Stay home when you are sick. And get better soon!
- Wear face coverings to help slow the spread of germs
- Practice physical distancing
  - Maintain your distance and stay six feet (or two meters) apart from others
  - No more than four in an elevator
  - Using every fourth step on escalators
- Wash your hands often with soap and water for at least 20 seconds
- Avoid touching your eyes, nose, and mouth

In case you missed it!

FlyHealthy@SEA Traveler Survey

We are committed to your health and well-being, and we recognize each person will have different comfort levels before returning to airport.

We’d love your feedback on how you’re feeling, and how we’re doing to re-earn your confidence. Take this survey!
