Seattle-Tacoma International Airport

Highest steel beam placed as part of North Satellite renovation

Pictured: Chris McClain, President Seattle Building Trades Council; Stephen P. Metruck, Port of Seattle Executive Director; Diana Birkett Rakow, VP, External Relations at Alaska Airlines; Lance Lyttle, Sea-Tac Airport Managing Director.

The future of more efficient and enjoyable travel at Seattle-Tacoma International Airport (SEA) is taking shape. This week steelworkers placed the highest beams on the new North Satellite's 80 foot high central atrium.

When completed in 2021 the North Satellite will increase traveler comfort with more space, satisfy passenger cravings with 17 new restaurants and shops, and inspire and entertain with a brand new marquee performance stage. Phase 1 of the project opened in July with a 240-foot expansion including new gates, seating, four dining and retail shops, a nursing suite, and a new Alaska Airlines lounge.

SEA expands services to make travel more accessible

Port Commissioner Peter Steinbrueck gave remarks at a recent announcement of new accessibility services at SEA.

SEA has added new services to make travel more accessible and less stressful for everyone. These services make the airport more accessible and improve the travel experience beyond the Americans with Disabilities Act (ADA) requirements. The improvements advance the airport's objective to make travel as easy, safe, and comfortable as possible.

Improvements include a new pilot program to meet the needs of guests with hidden disabilities, a hearing loop pilot project that improves the clarity of sound for passengers with T-coil hearing aids, cochlear implants and hearing instruments, wheel chair accessible taxis, and better accessibility wayfinding on the Sea-Tac App.

Maritime

Participate in the environmental review for the development of a new cruise terminal

The Port is proposing to develop a new cruise terminal at Terminal 46 as part of a flexible marine transportation facility, which will continue to support cargo and other marine operations. An Environmental Impact Statement (EIS) is being prepared that will evaluate potential impacts to transportation, air quality/greenhouse gas analysis, noise, biological resources, earth, water resources, aesthetics/light and glare, historic/cultural resources, and environmental justice.

Scoping is the first step in the **environmental review process**. The environmental review scoping period is scheduled from October 23 to November 13, 2019. We are inviting stakeholders, including agencies, tribes, community members, and the general public to comment and suggest potential environmental elements and alternatives for evaluation. Comments help us determine which potential impacts are insignificant and which impacts and development warrant further analysis.

You can provide your comments until 4:00 p.m. PST on Wednesday, November 13, 2019 using the following methods:

- Comment online: <https://t46cruise.participate.online>
- Email: SEPA@portseattle.org (please include your name and preferred contact)
- In writing to: Laura Wolfe, Port of Seattle, Pier 69, 2711 Alaskan Way, Seattle, WA 98121

A summary of comments will be posted to the Terminal 46 Cruise Terminal Development website in December 2019.

Port explores maritime innovation with Iceland trip

Last month Port Executive Director, Stephen P. Metruck and Port Managing Director, Economic Development Division, Dave McFadden traveled to Iceland to visit the Ocean Cluster House, a maritime innovation center and world leader in seafood innovation. As the Port works on plans to design our own maritime innovation center at Fishermen's Terminal, the trip served as research to learn how similar facilities are laid out to support industry collaboration, entrepreneurship, research, and commercialization

Port officials met with leaders running the Cluster House as well as some of the entrepreneurs working on new maritime products and ideas. By getting entrepreneurs to make new products from fish, Ocean House has supported exciting new business ventures (ex. Collagen infused soda) while helping the country's traditional industry diversify.

In the Community

Port Police Bike Team patrols and makes connections on two wheels

The Port of Seattle Police Bike Team of approximately 20 officers can be spotted patrolling SEA and portions of the Seattle waterfront area. The Bike Team provides quick response to emergency situations and routine calls in the large and bustling airport terminal as well as patrolling the Port's parks, marinas, and waterfront terminals. Greater efficiency, enhanced passenger experience and community engagement, higher visibility and a cleaner and healthier form of mobility are benefits of patrolling on a bicycle. Learn more about a day in the life of the Bike Team from Officers Ignatov and Neisinger.

SEA events celebrate harvest season and cultural traditions

SEA held three events last week at the airport for passengers to celebrate the harvest season and honor cultural traditions. Children traveling through the airport painted pumpkins, stopped by our photo booth to pose with their creations. Airport staff dressed in Halloween costumes passed out candy to travelers dressed for the occasion. Port Latino employee resource group Latinos Unidos organized a Día de los Muertos or "Day of the Dead" celebration, a Mexican holiday to honor and remember loved ones that have passed on, with a commemorative altar, food, and music in the D Annex at SEA.

Multilingual boat tour introduces communities to Port operations and programs

As part of the Duwamish Valley Community Equity Program, the Port recently partnered with community leaders in the Duwamish Valley and the Port Community Action Team (PCAT), to host a multilingual, interactive, and family-friendly educational boat tour of the Duwamish River. The event was designed to be accessible for guests experiencing Limited English Proficiency and Spanish, Vietnamese, and Khmer (Cambodian) interpretation was provided.

PCAT members hosted information booths on board to raise awareness of the three

shared goals of the program: Community-Port Capacity Building for Ongoing Collaboration, Healthy Environment and Communities, and Economic Prosperity in Place. Over 130 attendees participated in the boat tour by learning about the Duwamish River and providing feedback on the program at each of the booths.

Healthy Habitats and Communities

Commissioner provides congressional testimony on Port climate initiatives

HOUSE COMMITTEE ON ENERGY & COMMERCE

CHAIRMAN FRANK PALLONE, JR.

Port Commissioner Fred Felleman recently represented the Port of Seattle and Northwest Seaport Alliance in testimony before the U.S. House Committee on Energy and Commerce Subcommittee on Environment and Climate Change. The hearing, "Building a 100 Percent Clean Economy: Solutions for Planes, Trains and Everything Beyond Automobiles," is the fourth hearing in a series of climate change hearings. Commissioner Felleman is the Founding Chair of the Port of Seattle Energy and Sustainability Committee.

In his testimony, Felleman asked that Congress:

- Support the transition to sustainable aviation fuels through funding, research and interagency partnerships
- Support electrification for marine terminals and other clean energy solutions for maritime operations
- Increase funding and expand program eligibility for environmental elements of projects that reduce emissions
- Harmonize federal and global efforts to decarbonize oceangoing vessels while at sea

Expanding Opportunity

Students explore careers through Port partnership with local school districts

Local students learned about careers in construction and engineering at the Port of Seattle at a recent career awareness event held at SEA. The Port partners with local school districts to hold career awareness events throughout the year to help communities learn about and benefit from job and business opportunities in Port-related industries.

Around 35 students from Tyee High School in SeaTac and Big Picture High School in Burien visited the construction site for the International Arrivals Facility aerial walkway project. After the tour, teams of students were challenged to construct their own version of an aerial passenger walkway out of Legos. The structures were judged on functionality, sturdiness, and visual appeal.

Port Commission Actions

The Port is committed to a future of expanded opportunity. Waterfront and airport investments commit to today's residents and the next generations that this Port will

investments commit to today's residents and the next generations that the Port will continue expanding economic opportunity, social inclusion, and environmental and community health.

November 12

The Port of Seattle Commission will hold a public hearing and consider resolutions to adopt the Port's 2020 budget and proposed 2020 tax levy amount.

The Port Commission will also consider establishing the Port-Wide Arts and Cultural Program Policy Directive to create a strategy for art and cultural programs across all Port facilities.

[Full agenda](#)

October 22

The Port of Seattle Commission approved a motion in support of Initiative 1000, which would allow public entities to take action to increase the number of minority, women-owned, and disadvantaged business enterprises that are awarded public contracts, and opposed Initiative 976, which would impact transportation infrastructure funding.

The Commission also heard briefings on accessibility improvements at Sea-Tac Airport, the 2020 Operating Division Preliminary Capital Improvement Budget, and the Tavy Levy and Draft Plan of Finance for 2020-2024.
