Hello readers,

As 2019 comes to a close, we gather with friends and family to celebrate the final days of the year and set goals for the coming year. Here at the Port, in that spirit of celebration and reflection, we're looking back at the Connections stories that resonated the most with you. In our final Connections issue of the year, we are recapping your top 10 Connections stories of the year. Keep reading and connect with what's important to you, discover what's new, and learn how you can get involved.

We want to hear from you!

As we look toward fresh starts in the new year, we're working on making some changes to Connections to better serve our readers. Take this survey and tell us what you love about Connections and how we can make this community resource work for you.

[Take our survey](#)

Top 10 Connections Stories

1. Saving lives — the right place at the right time

SEA is one of the safest places to have a heart attack in the world. Seattle area resident Joe Ravenscroft experienced this first hand when he collapsed while waiting to catch a flight out of SEA. With the help of three bystanders, the close proximity of an automated external defibrillator (AED), as well as the response of the Port of Seattle 9-1-1 Center, Police Department, and Fire Department, Ravenscroft received the timely emergency medical services he needed to survive.

2. Learn the lifesaving skill of hands-only CPR at SEA

Have an extra five minutes the next time you are traveling through SEA? Use those five minutes to learn the lifesaving skill of CPR. Train and test your skills at a kiosk located in the Central Terminal, operated by the American Heart Association with the generous support of MultiCare Pulse Heart Institute.

[Learn more](#)

3. North Satellite renovation moves forward

The future of more efficient and enjoyable travel at SEA is taking shape. In November, steelworkers placed the highest beams on the new North Satellite's 80-foot-high central atrium. As of today, the necessary demolition of the old, existing building is nearly complete. Crews are strengthening the existing structure with new steel to envelope the

original structure, an approach the project team calls “the seismic hug.” When completed in 2021, passengers will enjoy more space, 17 new restaurants and shops, and a brand-new marquee performance stage.

[Learn more](#)

4. Tools and services make travel at SEA more accessible

On the 29th anniversary of the Americans with Disabilities Act, we tagged along with SEA frequent traveler Larry Watkinson, his wife Kathy, and their service dog Huey to get their perspectives on the experience of navigating the airport. Watkinson has a vision impairment and works with the Washington State Department of Transportation (WSDOT) to manage ADA compliance at WSDOT facilities and on the website. SEA offers a variety of services to make travel more accessible and less stressful for everyone.

5. Thank you for participating in the environmental review for the development of a new cruise terminal

The Port invited community members and stakeholders to comment and provide feedback on development of a new cruise terminal at Terminal 46 during the environmental scoping period from mid-October through November. The proposed cruise terminal would be developed as part of a flexible marine transportation facility, which will continue to support

cargo and other marine operations. The Port will review all comments submitted for the Terminal 46 Cruise Terminal Development and use them to prepare the Draft Environmental Impact Statement (DEIS). The Draft EIS is tentatively scheduled to be issued in Q1 of 2020.

8. Go behind-the-scenes at the Port through our community classes

Each September, community members have a chance to learn what it takes to run a global hub for air cargo, millions of passengers, and a thriving fishing industry. These free adult education classes help illustrate how the Port and its partners keep the region moving. Don't want to wait until next September? Keep tabs on our [Events at the Port](#) page or check [Connections](#) to learn about upcoming tours, community education, events, and outreach that just might be up your alley.

9. REAL ID-compliant identification needed to fly starting October 2020

Travelers: It's time to plan ahead. Starting Oct. 1, 2020, travelers 18 years and older will need a REAL ID-compliant form of identification to board a commercial flight. Congress passed The REAL ID Act in 2005, which established minimum security standards for state-issued driver licenses and identification cards. The Act further prohibited federal agencies, including the TSA, from accepting state-issued driver licenses or identification cards that do not meet the minimum standards. Don't get left behind. Keep reading to learn which forms of ID are required to board an airplane.

10. SEA Airport holiday travel edition

With just over a million travelers heading through SEA for the holidays, the airport is bustling during this travel season. The holidays are about quality time, which means a little advanced planning can help you protect the time that matters most. We're here to help you prepare for your trip and discover something new at SEA.
