Port of Seattle implements new protocols for safe and healthy trade and travel

Follow these everyday **preventive actions to help prevent** the spread of Coronavirus and other respiratory diseases

Wash your hands often with soap and water for at least 20 seconds.

Avoid touching your eyes, nose, and mouth.

Cover your cough or sneeze with a tissue, and throw it away.

Clean surfaces using a household cleaning spray or wipe.

Stay home when you are sick. Avoid close contact with those who are sick.

More information: www.cdc.gov/COVID19

SEA
Seattle-Tacoma International Airport
Operated by the Port of Seattle

The Port of Seattle is introducing changes to maintain the safety, health, and wellbeing of passengers and employees using Port facilities, including Seattle-Tacoma International Airport in response to the 2019 Novel Coronavirus (COVID-19). These protocols build on steps the Port began taking one month ago when public health officials first announced that a Washington resident was ill with the new novel coronavirus. The protocols support other actions being taken by maritime and airline partners and federal agencies.

Here's what the Port and partners are doing to keep travelers and employees safe, along with recommendations for steps all travelers can take.

Port offers enhanced options for public comment at Commission

Port offers enhanced options for public comment at Commission meeting

Community members do not have to attend the next Commission meeting to provide public testimony. To reduce risk of exposure for the public to COVID-19 (coronavirus), the Port will offer enhanced options for public comment for this meeting. While in-person, verbal comments will still be accepted, those wishing to provide public comment will also have the option to:

1. **Deliver public comment via teleconference:** To take advantage of this option, please email commission-public-records@portseattle.org with your name and the topic you wish to speak to by 9:00 a.m. PT on Tuesday, March 10. You will then be provided with a phone number.
2. **Deliver public comment via email:** All written comments received by email to commission-public-records@portseattle.org prior to 9:00 a.m. PT on Tuesday, March 10 will be read aloud during the meeting by Port staff, within a two-minute time limit.

For additional information, contact commission-public-records@portseattle.org. The agenda and related materials are available on the Port's website.

Acceleration of noise insulation efforts to benefit airport communities

Sound insulation projects for homes, apartments, condominiums, and places of worship in neighboring Seattle-Tacoma International Airport communities will now be completed in

neighboring Seattle Tacoma International Airport communities and now be completed in less than half its current schedule. The Port of Seattle Commission approved the acceleration of these projects, which will now be completed in seven years, half the time originally expected. The projects were originally not expected to be complete for another 15 years.

Noise insulation near the airport is typically funded with approximately 80 percent in grants from the Federal Aviation Administration and 20 percent funding from the Port of Seattle's airport revenues. Noise insulation for impacted schools comes from FAA grants, Port airport revenue, the Port's property tax levy, and school district bonds approved by local voters.

Seattle-Tacoma International Airport

A little bit of grace at the airport

When travelers and airport employees spot Gracie, a yellow Labrador retriever at Seattle-Tacoma International Airport (SEA), their faces and eyes light up and any stress from their hectic day seems to melt away. Gracie, a certified therapy dog, and her owner Joanne Montzingo spend time at the airport each week building meaningful connections, offering travelers a friendly furry face and a moment of calm in what might otherwise be a jam-packed day.

Montzingo and Gracie form one of the six volunteer therapy dog teams at SEA working to improve passenger well-being. Volunteers like Montzingo and Gracie contribute to that customer-centered environment, and help travelers from around the world feel welcome at SEA one wag at a time.

Port Leadership

Jeffrey Brown to serve as new Aviation Chief Operating Officer

Jeffrey Brown has been selected to serve as the new Aviation Chief Operation Officer at Seattle-Tacoma International Airport, effective immediately. The new position will report directly to the Aviation Managing Director to ensure operational and strategic decisions are made and communicated in a timely and effective manner, so the airport continues to run smoothly and efficiently.

Brown has been the Director, Aviation Facilities & Capital Programs for the Port of Seattle since June 2016, leading the Aviation Planning, Capital Programs, Facilities and Infrastructure, Art Program, and the Airport Building Departments. The COO will help manage current spending of more than \$6.5 billion on capital development projects between now and 2025 to further reduce delays and improve the customer experience with more space and services. High-profile projects include the new International Arrivals Facility, North Satellite Modernization Project, new high efficiency baggage system, as well as SEA's Sustainable Airport Master Plan (SAMP).

Expanding Opportunity

Networking and Port resources help fuel contracting connections

The Port of Seattle is celebrating Women's History Month by recognizing and honoring women who are redefining women's roles in traditionally male-dominated industries.

Tamara Harris owns Yes We Can Flaggers, LLC, a minority-owned flagging business focused on providing flagger certification courses in an uplifting, inspiring atmosphere. Since starting her business seven years ago, in addition to teaching, Harris has worked as a flagger on a number of contracts including the Liberty Bank Building and the SR 99 tunnel project. She has attended a variety of Port of Seattle events and accessed Port resources as she pursues a contract with the Port. The Port has long been a supporter of small business growth and workforce development, and has made contracting with these firms a priority, offering a variety of resources and workshops to help business owners

learn about how to do business with the Port.

We sat down with Harris to chat about her business and how it got off the ground, her goals for contracting with the Port, and what resources have been helpful to her so far.

[Learn more](#)

Learn how to contract with the Port at upcoming workshop

Learn how to do business with the Port at an upcoming construction-focused PortGen workshop. Prime and subcontractors who have worked for the Port will participate in a panel discussion along with Port staff to answer questions from attendees. Potential topics include bidding, invoicing, monthly amounts paid, reporting requirements, and contract execution.

The workshop is from 10:30 a.m. to 2:30 p.m. March 27 in the Central Auditorium at Seattle-Tacoma International Airport.

Local students go behind the scenes to explore careers at the Port

Around 50 students from Tyee and Raisbeck Aviation High Schools recently got a behind-the-scenes look at maintenance and skilled trades careers at the Port of Seattle during a recent career awareness event. The group toured the Port's Maintenance Distribution Center and later got a first-hand look at what it's like to work in the Boiler Room.

The Port partners with local schools on a variety of career awareness events throughout the year to introduce students to higher-skill, higher-wage jobs in construction, technology, and other Port-related industries.

Healthy Habitats and Communities

What is an Airport Community Ecology Grant? Attend a drop-in session to learn more

Have a project or program that improves the natural environment and liveability of near-airport communities? The Port of Seattle is currently holding drop-in sessions for community members to learn more about the [Airport Community Ecology \(ACE\) Fund Small Matching Grants program](#), small matching grants for communities to conduct environmental projects. We are currently accepting applications through March 16 at 5 p.m. Eligible applicants include non-profit organizations, youth or athletic associations, chambers of commerce, and community groups.

Upcoming sessions

March 9

6:00-7:30 p.m.

Des Moines Woodmont Library

26809 Pacific Hwy S, Des Moines, WA 98198

March 10

6:00-7:30 p.m.

SeaTac Valley View Library

17850 Military Rd S, SeaTac, WA 98188

March 12

5:00-7:00pm

Burien Library, 2nd floor

400 SW 152nd St, Burien, WA 98166

Port Commission Actions

The Port is committed to a future of expanded opportunity. Waterfront and airport investments commit to today's residents and the next generations that this Port will continue expanding economic opportunity, social inclusion, and environmental and community health.

March 10

The Port of Seattle Commission will consider the execution of a contract for a Biometric Air Exit system for up to 30 international boarding gates at Seattle-Tacoma International Airport, and consider a motion for the Port to use its influence as an institution to promote workforce development.

The Port Commission will also consider a budget increase for the North Satellite Modernization Project budget, and hear a 2019 financial performance briefing.

[Full agenda](#)

February 25

The Port of Seattle Commission passed an amendment to the existing Sustainable Airport Master Plan Environmental Review personal services agreement with Landrum and Brown.

Commissioners heard a noise programs briefing and approved a motion directing the acceleration of the sound insulation program at Seattle-Tacoma International Airport. Commissioners also received a biometrics working group progress update and a briefing on the North Satellite Modernization budget increase.
