

The Award-Winning Work of FlyHealthy@SEA

Seattle-Tacoma International Airport (SEA) is committed to your health and well-being. The pandemic forced massive shifts in our lives. You can expect things to be different the next time you travel.

FlyHealthy@SEA is our layered, comprehensive action plan to ensure your health and well-being while traveling. We require face coverings and physical distancing, boosted cleaning and disinfecting activities, and added more touchless technologies.

SEA Airport Achieves the ACI Airport Health Accreditation!

As part of the continued effort to provide a safe and healthy environment for the traveling public, the FlyHealthy program at Seattle-Tacoma International Airport (SEA) achieved Global Health Accreditation under the Airports Council International (ACI) Airport Health Accreditation program. The ever-evolving efforts are detailed in the [FlyHealthy@SEA Action Plan](#).

SEA is the first airport on the West Coast to earn the accreditation.

ACI's Airport Health Accreditation program assists airports by assessing new health measures and procedures introduced as a result of the COVID-19 pandemic in accordance with the ICAO Council Aviation Recovery Task Force recommendations. Areas of assessment for accreditation include cleaning and disinfection, physical distancing, staff protection, physical layout, passenger communications and passenger facilities.

In case you missed it!

Alaska Airlines offers rapid COVID-19 testing for Hawaii-bound travelers

To help guests prepare for Hawaii's pre-travel testing program, Alaska Airlines will partner with Carbon Health to offer rapid COVID-19 testing at its pop-up clinics across the West Coast, starting Oct. 12 in Seattle. Hawaii will begin to welcome back visitors on Oct. 15 by allowing out-of-state travelers to enjoy the islands without a 14-day quarantine when they test negative for COVID-19 within 72 hours of their final leg of departure to Hawaii. Travel in a New Normal

The next time you visit SEA, your experience will look and feel different, including:

- Face coverings or masks are required
- Signage for reminders and spacing to honor physical distancing
- Plastic protective barriers that buffer interactions between travelers and airport employees
- Frequent disinfection with medical-grade cleaning products
- Added over 280 hand sanitizer stations throughout the terminal for your use. Download the SEA App with our interactive map of hand sanitizer locations.
- Each dining and retail tenant at SEA [developed plans](#) detailing procedures for safe operations such as physical distancing requirements, sanitation and personal hygiene protocols, personal protective equipment, and how to provide services while limiting close interactions.

FlyHealthy@SEA will continue to evolve as travelers return to the airport.

Help Stop the Spread – Passenger Actions

Passengers, employees, and the community can help stop the spread of COVID-19. We ask you to follow these guidelines to protect yourself, your fellow travelers and airport employees, including:

- Avoid non-essential travel
- Stay home when you are sick. And get better soon!
- Wear face coverings to help slow the spread of germs
- Practice physical distancing
 - Maintain your distance and stay six feet (or two meters) apart from others
 - No more than four in an elevator
 - Using every fourth step on escalators
- Wash your hands often with soap and water for at least 20 seconds
- Avoid touching your eyes, nose, and mouth
