

Travel Ready with FlyHealthy@SEA

Seattle-Tacoma International Airport (SEA) is committed to your health and well-being. The pandemic forced massive shifts in our lives. You can expect things to be different the next time you travel.

FlyHealthy@SEA is our layered, comprehensive action plan to ensure your health and well-being while traveling. We require face coverings and physical distancing, boosted cleaning and disinfecting activities, and added more touchless technologies.

Travel and COVID-19 Testing

2020 hasn't been our favorite. We missed you, but we're happy to welcome you back to SEA! Each person has a different comfort level with when to return to air travel, and you may consider a COVID-19 test before travel.

Currently, SEA and Washington state do not require COVID-19 testing prior to travel or quarantines upon arrival here. But as always, you should not travel if you have symptoms or feel ill.

We are evaluating the feasibility of offering COVID-19 testing services as this becomes critical for passengers traveling to destinations with quarantines. In the meantime, if you're departing from SEA and seeking a COVID-19 test before travel, [these are options for testing sites](#).

In case you missed it!

New Airport Dashboard Tracks Confirmed COVID-19 Cases

The Port of Seattle documents when an employee or airport tenant in a public-facing role tests positive for COVID-19. We define a public-facing role as an employee who primarily interacts with members of the public for at least 15 minutes during their shift. We also track when we are made aware of an airline passenger who tests positive for COVID-19. We created a [dashboard](#) to share this data with the public.

Travel in a New Normal

The next time you visit SEA, your experience will look and feel different, including:

- Face coverings or masks are required
- Signage for reminders and spacing to honor physical distancing
- Plastic protective barriers that buffer interactions between travelers and airport employees
- Frequent disinfection with medical-grade cleaning products
- Added over 280 hand sanitizer stations throughout the terminal for your use. Download the SEA App with our interactive map of hand sanitizer locations.
- Each dining and retail tenant at SEA [developed plans](#) detailing procedures for safe operations such as physical distancing requirements, sanitation and personal hygiene protocols, personal protective equipment, and how to provide services while limiting close interactions.

FlyHealthy@SEA will continue to evolve as travelers return to the airport.

Help Stop the Spread – Passenger Actions

Passengers, employees, and the community can help stop the spread of COVID-19. We ask you to follow these guidelines to protect yourself, your fellow travelers and airport employees, including:

- Avoid non-essential travel
- Stay home when you are sick. And get better soon!
- Wear face coverings to help slow the spread of germs
- Practice physical distancing
 - Maintain your distance and stay six feet (or two meters) apart from others
 - No more than four in an elevator
 - Using every fourth step on escalators
- Wash your hands often with soap and water for at least 20 seconds
- Avoid touching your eyes, nose, and mouth
