RE: 2021 Fees

Effective Date: January 1, 2021

As you know, the Port of Seattle uses a cost recovery based financial model for our Ground Transportation Business and Operations. This means that we recover our costs for facility management, maintenance, and improvements through the permit or trip fees we charge our Ground Transportation operators.

Our cost recovery calculations for 2021 reflect that Charters will be broken into two vehicle classes for the upcoming year.

- Charter Van - vehicle capacity of less than 30 seats shall pay **\$9.60** per trip.
- Charter Coach - vehicle capacity of 30 seats or greater shall pay **\$23.00** per trip.

If you have any questions about this change or would like to review our cost recovery model, please don't hesitate to contact Krista Crosby [crosby.k@portseattle.org](mailto:crosby.k@portseattle.org).

Best Regards,

Vicky Ausbun  
Manager, Ground Transportation
