

# POS Aviation Security Advisory

Notification Date: May 18, 2021

Airport stakeholders, this is notification of extension of limited entry points to the terminal via the curbside arrivals level and parking garage through August 1, 2021.

## Access changes from the hours of 0000-0400:

\*Anyone wishing to enter the terminal via curbside arrivals level may access through door 20 or 6

\*Anyone wishing to enter the terminal via the parking garage may access through skybridge 2 or 4

Normal access to all entry points to the terminal will resume at 0400. The new daily access limitation will remain in place for the next 30 days while we evaluate the impact of these new restrictions.

## Security Advisement

Only under emergency circumstances should any person **FORCIBLY PRY DOORS OPEN TO EXIT OR ENTER THE TERMINAL.** Port police are actively monitoring entry points to the terminal and stakeholders should assume any door closure is intentional. If you encounter an exit or entrance to the terminal in a closed status, please utilize another ingress or egress access point in another area. Thanks in advance for your strict adherence to this policy.

Thanks in advance for your support and direct any questions or concerns to:
