Fisherman's Terminal Rehabilitation Design	The Consultant shall provide all required professional services to prepare a design for the Fishermen's Terminal Northwest Dock pier and fender replacements. This project will replace the existing piers 1 & 2 on both the North and south side of the central pier. The design includes utilities along the dock including water, power and possible stormwater improvements. Included in the work will be analyses of several potential sustainability elements, a lifecycle analysis of different structural materials, and planning and phasing of the construction work to minimize impacts to tenants and operations. All work shall be in compliance with the current Seattle Building Code. The Port has elected to use a "Design-Bid Build" contracting methodology to deliver this project.	Waterfront Project Management	Consulting Services	\$1.7M - \$2.2M	Longridge, Mark	Maddox, Lisa	Maddox.L@portseattle.org	4Q 2025
South Concourse Renovation and Enabling Project Testing and Special Inspections	This capital improvement project will extend the useful life of the South Concourse and meet current code requirements. This includes structural, seismic and building system upgrades as well as modernization of passenger spaces. This procurement will be for Testing and Special Inspection Services to assure construction meets code standards.
