

Future Procurement Opportunity Summary - Goods and Services

4/6/2026

Procurement Title	Description	Department	Category	Estimate	Project Mgr	Port Contact	Port Contact Email	Advertisement Date
Integrated Engineering Information Management System (IEIMS) - RFI	IEIMS is a strategic initiative to modernize how the Port manages engineering and asset information across full lifecycle-from design and construction through operations and maintenance. The envisioned solution will serve as a centralized, BIM enabled platform that integrates disparate systems, standardizes data, and improves accessibility for stakeholders across the organization.	ICT Enterprise Infrastructure Services	Goods and Services	RFI	Rishi, Shohrat	Clark, Alex	Clark.A@portseattle.org	2Q 2026

26-44 Digital Community Engagement Tool	1.1. The Port of Seattle (Port), in collaboration with the Northwest Seaport Alliance (NWSA), seeks to implement a cloud-based Digital Community Engagement Solution that enhances in-person engagement practices and empowers Port staff to foster stronger community connections through accessible, equitable, and secure means. This solution will be utilized by the Community Engagement and Maritime Environmental teams to support the Port's mission of open communication and inclusive participation.
